sponsors for supporting our conference

*a division of Chief Industries, Inc.*

**METAL BUILDING  
CONTRACTORS & ERECTORS  
ASSOCIATION**

MBCEA was formed in 1968 to serve the needs and support the interests of metal building contractors and erectors. The MBCEA provides valuable programs and services to hundreds of those who proudly call themselves metal building contractors and erectors. If you are interested in becoming a member, please call us at 484-239-3337 or visit [www.mbcea.org](http://www.mbcea.org) for more information.

### About the Exhibitors

The MBCEA Conference will feature exhibits and leading product and service providers. Unlike many big trade shows, the MBCEA Conference exhibits are more accessible, and more related specifically to metal building construction. This will allow you more time to spend with companies that serve you... the metal building contractors and erectors. If they are exhibiting at the conference, they are highly involved in the metal building industry.

### About Derek Sanderson

Derek Sanderson played with the Boston Bruins alongside Bobby Orr and Phil Esposito. He became known as a tough guy who wouldn't back down from any fistcuffs and was arguably the best two-way player in the game.

Winning two cups with the Bruins helped Sanderson rise to celebrity, becoming one of hockey's first rebels. The Philadelphia Blazers made Sanderson the highest paid athlete in the world when they offered him more than \$2.65 million.

After numerous bad investments and a drinking habit to support, he ended up on the streets of Chicago and New York. After help from friends, Sanderson got the help he needed and went into rehab. His body was broken down from years of abuse, and he needed several surgeries to repair his hips so he could just walk.

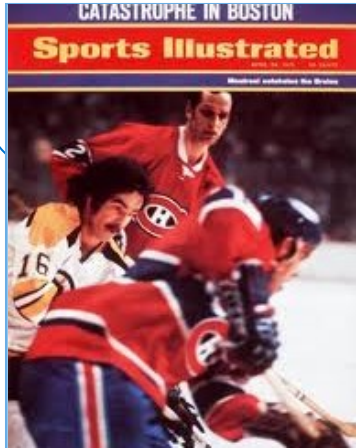

He now stands on his own two feet and guides other athletes away from the horrors that he put himself through. In September 2013, Sanderson received the Hockey Legacy Award from The Sports Museum at TD Garden.

### About the Roundtable

Ask our panel of experts from OSHA, Manufacturer Representatives, Contractors, Erectors and Legal any question on your mind. This is a great opportunity to learn from the best. Hear from colleagues who most likely face similar issues as you!

# METAL BUILDING CONTRACTORS & ERECTORS ASSOCIATION
