

Membership Dues Change

The MBCEA cost of membership has held steady for many years. However, over those same years a few idiosyncrasies developed. Contractor dues were \$495 IF you lived in a state that had a Chapter. If you were from a state with no chapter, the annual dues had been \$365. This \$130 difference represents the amount national transfers to each local chapter.

Some markets have Chapters that are not very active; other markets have a very strong Chapter presence; while other chapters are in their infancy. The Board remains committed to Chapter development. However, we are also committed to training and networking opportunities for all, regardless of a chapter presence.

Effective with the 2015 renewals, all members will now be assessed the same dues of \$495 regardless of geographic location. \$130 will be earmarked for local development. Active Chapters will continue to receive \$130/member.

If you have any questions as to how this may affect you, please do not hesitate to contact Sasha or me.

Classifieds

Members are able to post classified ads for free on the MBCEA web-site. Have a piece of equipment to sell? Need an extra crew? Post it to your peers. I also suggest you check out the web-site regularly as we are always adding new ads and content.

METALCON

Once again, we are able to offer our members free registration to METALCON. In addition, we will be holding a training session that will be free to MBCEA members. Stay tuned for registration information.

Thank you for your commitment to the Metal Building Systems Industry and for your participation in the MBCEA. Together we are stronger.

Sincerely,

Gary T. Smith
President, MBCEA

PS One more thing: We can include a logo and short and long description of each member company in their member directory listing on our web-site. This will enhance your listing, catch the eye of the person searching and give more information regarding the services/products you offer. Email Sgraver@mbcea.org
